Personal Statement

I'm a new graduate with a passion for research, data and design. I love working in a client centric manner, ensuring the customers best interests are at heart. I view myself as self-motivated and passionate, always enthusiastic about a new opportunity to develop myself and push myself to work smarter.

Education

Digital Media and Interaction Design (First Class Honours) | *Edinburgh Napier University* | 2017 - 2021

- Studied and designed using a wide range of industry software and practices, particular proficiency with Adobe Creative Cloud, Figma and Unity as well as Agile and Iterative work methodologies
- Stayed up to date on current digital media trends and emerging technology
- Honours project involved conducting in-depth user research to develop augmented reality software which makes video call based Dungeons and Dragons games more immersive

Experience

Content Designer and Teaching Assistant | *Whale Arts Centre* | Summer 2021

- Developing and writing web based tutorials to teach children to develop games using Scratch
- Working with trained educators to deliver a kid-friendly in-person software development introduction crash course based around games

Augmented Reality Software Developer | *Jupiter Artland* | Summer 2021

- Collaborate with 3D Artist to produce a visually pleasing and highly functional IOS and Android augmented reality app built in Unity
- Self-manage deadlines to produce high standard application to client on time
- Learning new software while actively developing the application

UX Researcher and Designer | *Blended Interactions Edinburgh/ New York* | Aug 2019 / Jun 2020

- Employed various research methods for maximum data collection and analysis
- Create mixed reality solutions from data and pitch them to stakeholders
- Collaborated with international designers and institutions

Student Demonstrator | *Edinburgh Napier University* | Aug 2020 – March 2021

- Acted as a second lecturer to assist students in lectures, demonstrations and technical workshops
- Challenged students to produce their best work and feel confident in pitching their ideas to a group
- Encouraged creativity and pushed students to use out the box thinking and innovation

Whisky Shop Advisor | *Scotch Whisky Experience* | Jun 2019 - Dec 2019

- Front facing roll ensuring all visitors were met with a 5-star experience
- Used degree knowledge of user experience to translate into the role; get to know customers, identify needs and requirements, and provide the experience best suited to their needs
